**State and pollution of the environment in north-eastern Poland,
selected issues**

Guest Editor: Elżbieta Skorbilowicz

CONTENTS

Editorial	3
<i>Marzena Ewa Smolewska, Małgorzata Krasowska, Jolanta Piekut, Maciej Smolewski, Ewelina Bagińska</i>	
Assessment of PAH content in soil and aboveground parts of <i>Lolium perenne</i> L. next to the communication arteries of the urban agglomeration	5
<i>Dariusz Boruszko, Ada Wojciula</i>	
Heavy metals and polycyclic aromatic hydrocarbons in leachates from autothermal thermophilic aerobic digestion as a potential threat to the environment in north-eastern Poland	15
<i>Piotr Ofman</i>	
Identification of pollution sources in the Narew River catchment using multivariate statistical methods	23
<i>Aleksander Kiryluk</i>	
Plant communities in drainage ditches – conditions, characteristics and environmental functions	31
<i>Małgorzata Krasowska, Małgorzata Kowczyk-Sadowy</i>	
Assessment of the possibility of using waste from agri-food processing for fertilization purposes	41
