

ACADEMIA

No. 4 (40) 2013 The Magazine of the Polish Academy of Sciences

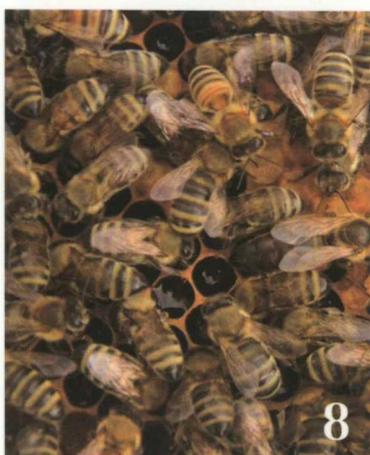

Focus on

Class Counts in Poland

The pursuit of the core values that are key to different social cases can hinder dialogue and even lead to conflict

– Dr. Przemysław Sadura warns

Focus on

Honey Bees for 100 Grams of Toffee

Bees in essence use a kind of sign language to communicate. Not by using their hands, but by dancing

– Prof. Jerzy Woyke tells us

Briefly Speaking

„Lem” Gazes at the Twinkling Stars

We established contact with “Lem” essentially right away, so we know that what we have out there is not 6 kg of orbiting junk

– says Prof. Paweł Moskalik
