

ACADEMIA

No. 3 (23) 2009 The Magazine of the Polish Academy of Sciences

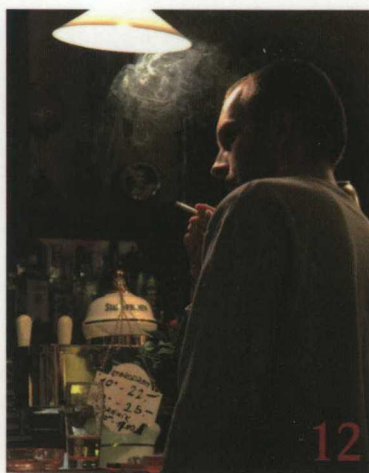

Focus on

Poles' Values

Aleksandra Jasińska-Kania

The values of Polish society have become less traditional in the past two decades, yet family and work still top the list

Focus on

Memory Sickness?

Wojciech Kostowski

The mechanisms underlying addiction are similar to those involved in learning and memory

Briefly Speaking

Paleontology Instills Humility

Zofia Kielan-Jaworowska

Paleontological research helps us to better understand our place in nature – says Poland's world-famous early mammal specialist
