

ACADEMIA

No. 3 (19) 2008 The Magazine of the Polish Academy of Sciences

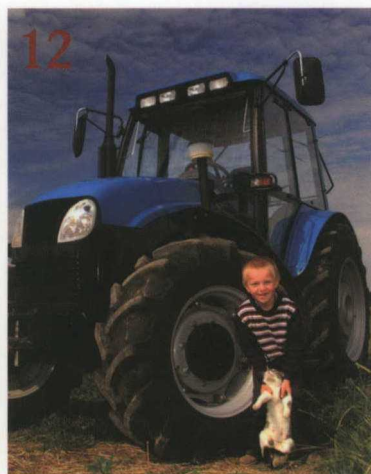

Focus on

“Green” Biotechnology

Andrzej Anioł, Janusz Zimny

The power of modern science against the power of natural human population growth: can mankind avoid “inevitable” food shortages?

Focus on

Poland’s Ageing Workforce

Andrzej Rosner, Monika Stanny

Natural growth in the rural working-age population will begin to wane after 2015, enabling the Polish agricultural sector to be restructured

Briefly Speaking

Intrigued by Experimentation

Andrzej K. Tarkowski

A world-renowned Polish embryologist talks about research utility, the ethics of working with embryos, and the satisfaction of research

Editorial 3

Focus on 4

Plant Biotechnology 4

“Green” Biotechnology, Andrzej Anioł, Janusz Zimny

High-Energy Physics 8

Titanic Collider, Michał Turała

Demography 12

Poland’s Ageing Workforce, Andrzej Rosner, Monika Stanny

Astronomy 16

A Flash of Insight, Lech Mankiewicz

Nutrition Science 20

Mother’s Own Milk, Monika Słupecka, Jarosław Woliński, Stefan G. Pierzynowski

Sociology 24

21st-Century Cinderella, Henryk Domański, Dariusz Przybysz

Research in Progress 28

Medicine 28

Faulty Sperm, Marta Olszewska, Maciej Kurpisz

Archeology 31

The Age of Stone, Przemysław Urbańczyk

Ecology 34

Ladybird Conquers the World, Piotr Ceryngier

Soil Mechanics 37

When the Soil Flows, Andrzej Sawicki

Briefly Speaking 40

Intrigued by Experimentation 40

Highlights 44

Insight 46

Bringing Back Fascination 46

Krzysztof Jakubowski

Polish Science on the Danube 48

Bogusław Dybaś

Short Circuit 50

Fostering the Future 50
