

1. Introduction (TNR 16)

Paper sent to Archives of Civil Engineering must be prepared in accordance with this template and can contain up to 16 formatted pages as described below. Please use paragraphs in the whole manuscript body. Pictures must be at a minimum resolution of 300 DPI. Polish Authors have up to 2 additional pages for Polish Summary at the end of the article. Do NOT use fonts in capital mode in the article, e.g. “Capital Mode”. All fonts must be available in the standard WORD software. All manuscripts should be submitted electronically on <https://www.editorialsystem.com/ace/>.

1.1. The first page (TNR14)

The first page should contain only the type of paper, the title, authors' names, affiliations (use footnote), and e-mail address of each author as well as ORCID number both as clickable links, abstract, according to the formula:

- Type of a paper e.g. Research paper/Review Paper: TNR 12, 0.50 cm indentation right
- The Title of the Article, TNR 18 pt., center-aligned, bold, sentence case, e.g. The recently built Polish large arch bridges
- Footnote with the authors' names, academic titles, address, e-mail, and ORCID number TNR 10 pt., please use clickable links; hyperlinks e.g. ace@il.pw.edu.pl, ORCID: <https://orcid.org/0000-0002-9079-593X>
- The abstract of 150-250 words should be after the names of the authors, using 10 pt. TNR font with 1 line spacing, 0.50 cm indentations left and right, justified text
- There should be a list of up to 6 keywords, placed in alphabetical order, separated by a comma
- MARGINS! top, left and right margins should be 2.5 cm
- The main text of the article, called body manuscript, must start from the second page with a new section. It should be written in standard Word, typed using 12 pt. Times New Roman (TNR) font with 1.5 line spacing, on single-sided A4 sheets and should be divided into numbered (1, 2, etc.) and titled chapters and, if needed, into subchapters (1.1, 1.2, ... in Chapter 2, 2.1, 2.2, ... and so on). Please check fonts in this document.

2. Math

2.1. Tables and figures

Tables and figures inserted into the text should be numbered consecutively and titled. Figure captions should be placed below the figures; table heads should appear above the tables. **All tables should be editable. Insert figures and tables after the reference in the text.** Use the abbreviation “Fig. 1,” however at the beginning of a sentence using “Figure 1”. Do not abbreviate “Table”. Please pay attention to the international notation of units – with full stop punctuation, not a comma. Tables and figures should be referred to in the text as Fig. 1, Fig. 2, ...; Table 1, Table 2. Before and after table and figure should be *1 free line (12 dpi)*. Titles of tables (above the table) and Fig. (under figure) – TNR 11 pt., center-aligned. The text in table 10 pt., center-aligned (examples below).

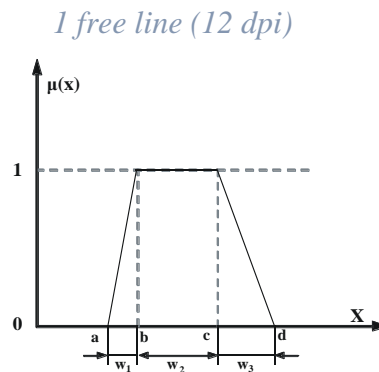

Fig. 1. The figure title (*no dot at the end*)

1 free line (12 dpi)

Colour figures will be accepted only if the colour is essential for the explanation.

1 free line (12 dpi)

Table 1. The table title (*no dot at the end*)

1	2	3	4	5	6
A	Text tab. 10 pt.		Centre align		
B					
C					

1 free line (12 dpi)

The article should use the following standards:

- drawings in vector form – Excel, eps, Corell
- photos – jpg, tif – not bitmaps,
- photos – in the highest possible resolution (jpg, tif), minimum 300 dpi.

2.1.1. Units and mathematical formulas (TNR12)

All math formulas must be editable. SI units and abbreviations are obligatory. Mathematical formulas should be written in equation editor (Microsoft Equation program) and centered with clear readability of indexes and exponents, using Greek symbols if needed. The formulas in the text are to be numbered consecutively in each Chapter, i.e. (1.1), (1.2), ... in Chapter 2, (2.1), (2.2), and so on. The numbers should be placed in parentheses (...) on the left side. The formulas are to be referred to as Eq. (1.1), Eq. (1.2), ..., Eq. (2.1), Eq. (2.2), ..., etc. Please do not use any punctuation marks after equations. Number all equations that are in your paper.

The energy (E) is defined by the following formula:

1 free line (12 dpi)

(1.2)
$$E = \frac{\alpha mc^2}{34}$$

1 free line (12 dpi)

where: (TNR 11 pt., justify align)

α – coefficient of difficulty of presented problems, m – mass of the author(s), c – velocity of writing a paper

1 free line (12 dpi)

References (TNR12)

References in the paper must be listed in numerical order, and in the same order in which they appear in text. The reference list should include all and only those references you have cited in the text. Use Arabic numerals placed in square brackets [...]. Please make sure that you use full names of journals i.e. Archives of Civil Engineering. Pay special attention to spelling, capitalization and punctuation. Check the reference details against the actual source – you are indicating that you have read a source when you cite it. Be consistent with your

referencing style across the document and follow our format which is consistent with the IEEE Citation Style. The reference list appears at the end of the paper, using TNR font 10 pt. with 1.0 line spacing. Please add the digital object identifier (DOI) number as an active link for all works that have one - with period at the end. In your reference list, standardize DOIs into the same format for all entries. For example, use doi: [10.1037/a0040251](https://doi.org/10.1037/a0040251). In references use a comma before the word doi and use lower-case letters.

Furthermore, authors can use specialized platforms for selection and writing References for example Mendeley or Zotero.

The IEEE citation style we adopted has 3 main features:

- The author's name: initial of a name and last name, e.g.: **A. Smith**
- The title of an article, chapter, patent, article from Conference proceedings (published) and papers presented at Conferences (unpublished) is in quotation marks, e.g.: **“Hyperloop – Civil engineering point of view according to Polish experience”**
- The title of a book or journal is in italics, e.g. *Robot vision*, *Archives of Civil Engineering*

Use the format illustrated below. Follow the details exactly, e.g.: put a comma after an author and a journal title but period after a book. Cite page numbers as pp., abbreviate all months to the first three letters (e.g. Jun.) Use full names of journals such as “Archives of Civil Engineering”.

Book: Author(s), *Book title*. Location: Publishing company, year.

[1] B. Klaus, P. Horn, *Robot vision*. Cambridge, MA, USA: MIT Press, 1986.

Edited book: Ed(s)., *Book title*. Location: Publishing company, year.

[2] A. Smith, Ed. *Robot vision*. Cambridge, MA, USA: MIT Press, 1986.

[3] A. Smith and J. Nowak, Eds. *Robot vision*. Cambridge, MA, USA: MIT Press, 1986.

Book Chapters: Author(s), “Chapter title”, in *Book title*, edition, volume, Editors name, Ed. Publishing location: Publishing company, year, pp.

LIST OF FIGURES AND TABLES: Do not provide a list of figures and tables.

Summary at the end of paper – in Polish (for Polish authors only)

Tytuł artykułu (TNR11)

Słowa kluczowe: do 6 słów kluczowych, w kolejności alfabetycznej, oddzielonych przecinkiem , (TNR9)

STRESZCZENIE: (maximum 2 pages, TNR 10 pt. justify align, with 1 line spacing).

PLEASE, NOTE: CORRECT PAPER FORMATTING IS THE RESPONSIBILITY OF THE AUTHOR(S).

CHECKLIST:

- ✓ All pages starts with 2.5 top, bottom, left and right margins.
- ✓ The first page includes: type of a paper, Article title (Sentence case, bold, centred), Full first name and surname of all authors, affiliations with footnotes, email and ORCID number as clickable links; hyperlinks. The abstract is written using 10 pt. TNR font with 1 line spacing, 0.50 cm indentations left and right, justified text.
- ✓ The second page and the following pages start with a new section. Headings are written with sentence case.
- ✓ The manuscript is typed using 12 pt. Times New Roman (TNR) font with 1.5 line spacing, on a single-sided A4 sheets.
- ✓ Figures and tables are inserted into the text, titled and consecutively numbered. References to tables and figures are indicated in the text as Fig. 1, Fig. 2 etc. and Table 1., Table 2. etc. Tables and figures are put just after they are mentioned in the text.
- ✓ It is obligatory to put files with Figures as separate files in the Editorial System. You will be asked to do so as well as carefully check References in Initial Acceptance Letter.
- ✓ All maths formulas are editable!
- ✓ The paper does not exceed 16 pages including tables and figures. Only Polish authors should put a maximum of 2 additional pages with an extended summary in Polish at the end of the article.
- ✓ Bibliography includes DOI numbers if they exist and they are clickable links; hyperlinks.
